

TarGo® EF

TOUGH ON OILY STAINS EASY ON THE ENVIRONMENT

**Flushes Freely in
Perc, Hydrocarbon,
GreenEarth® or K4**

TarGo EF, our high performance, environmentally friendly P.O.G., removes oil-based stains from textiles. You'll see the difference on the toughest oxidized oils, greases, inks, etc.

To remove stains easily, simply apply TarGo EF and flush the stains out in your major-solvent drycleaning wheel. On the most difficult stains, TarGo EF can be used effectively on the spotting board.

TarGo EF contains no chlorinated solvents, is biodegradable, and meets California's 2013 VOC and Prop-65 regulations.

Use it with confidence!

- Removes Oils, Greases, Inks, etc.
- Flushes in Hydrocarbon, GreenEarth® or Perc
- Contains no Chlorinated Solvents
- Complies with V.O.C. and Prop 65 Regs.

Effective, Environmentally Friendly Stain Removers Needed

TarGo® EF The Environmentally Friendly Drycleaning P.O.G.

TarGo® EF was developed to meet the needs of environmentally friendly drycleaners. It contains no chlorinated solvents, meets California's tough new V.O.C. regulations and complies with Prop 65 requirements.

TarGo EF is not only environmentally friendly, but also has the stain removal power of TarGo Dry, making it far superior to alternative stain removers. It effectively removes oils, greases, paints, inks, make-up, tar and similar stains.

Safe for use on most fabrics and colors, TarGo EF is a direct application stain remover that is used on the spotting board. And it can be used in coordination with alternative solvents, as well as with perc.

For laundry and wetcleaning, use Laundry TarGo® the environmentally friendly companion to TarGo EF.
