

SoGo® Reclamation System

The SoGo Reclamation System is a linen rewash system designed to return once-stained linens to working inventory without damaging linen tensile strength or color. The SoGo Reclamation System contains SoGo "1", SoGo "Plus 1" and SoGo "S.M.R."

SoGo "1" is a unique powdered laundry detergent, blended with enzymes, that safely removes a wide variety of protein stains.

SoGo "Plus 1" is a unique liquid laundry detergent / stain removal agent, designed to be used with SoGo "1", that intensifies the protein attack properties of SoGo "1" and removes a broad range of non-protein stains.

SoGo "S.M.R." is a powdered laundry stain remover whose unique, controlled chlorine bleaching action safely removes a wide range of residual stains, as well as both deep-seated and surface mildew.

DIRECTIONS

Load machine to capacity, but do not overload.

STEP 1	135°F Water at High Level	Flush	Run for 3 minutes
		Drain	1 minute
STEP 2	140°F ¹ Water at Low Level	16 oz. SoGo "1" ² and 16 oz. SoGo "Plus 1" for each 100 lbs. rated machine capacity.	Run for 30 minutes
		Drain	1 min. Do Not Rinse.
STEP 3	140°F ³ Water at Low Level	32 oz. SoGo "S.M.R." for each 100 lbs. rated machine capacity.	Run for 30 minutes
		Drain	1 minute
STEP 4	Follow with three, three minute, high level rinses, then sour to finish.		

¹ This temperature should be as hot as possible, but no more than 145°F.

² Don't inject steam after SoGo "1" has been added.

³ Temperatures up to 185°F can be used.

NOTES: - SoGo Reclamation System can be used on whites and color-fast colors.
 - Add products manually after temperature level is reached.
 - Quantities indicated are for horizontal axis commercial laundry machines only.
 - Product Safety Data Sheets are all available at ALWilson.com.
