

**RiteGo®**

**Laundry Spray Spotter  
Neutral Lubricant / Stain Remover  
Laundry Additive**

### **RiteGo - with Micro-Emulsion Technology**

RiteGo is a high performance laundry spray spotter, fast acting, eco-friendly and cost-effective. Use it on collars & cuffs, wedding gowns, and anything else you're washing or wetcleaning.

RiteGo is also an excellent neutral lubricant. Use it on your spotting board to remove stains or to enhance the performance of specialized stain removers.

Finally, RiteGo is an effective laundry additive. Use it in your laundry washwheel to boost your current chemistry.

### **DIRECTIONS**

Before starting, read and understand the RiteGo Safety Data Sheet.

- ♦ **As a Laundry Spray Spotter:** Spray the stained area with RiteGo, then wash. For the most heavily soiled areas, tamp before washing.
- ♦ **As a Neutral Lubricant / Stain Remover:** Apply RiteGo directly to stain. Flush with wet steam. If any stain remains, re-apply RiteGo then add the appropriate specialized stain remover and follow its instructions.
- ♦ **As a Laundry Additive:** Add 2 to 4 ounces of RiteGo into a 50-pound washwheel in addition to your current chemistry.

#### **Micro-Emulsion Technology**

RiteGo quickly penetrates to absorb oils and to release collar & cuff stains, perspiration, ground-in soil and more.

#### **No Brushing Required**

Just spray it on and wash it out, saving time and labor. And since brushing causes damage, your customers' goods will last longer.

#### **You Delivery Better Quality**

By delivering stain-free goods, you build your reputation for quality - and that's what keeps customers coming back.

#### **Eco-Friendly**

RiteGo is California compliant, chlorinated-solvent and NPE free, biodegradable and non-combustible.
