

# TarGo<sup>®</sup> Dry

TRADITIONAL OILY STAIN  
REMOVER FOR USE IN  
COORDINATION WITH PERC

## TarGo<sup>®</sup> Dry

TarGo Dry is the best spotter ever for removing tough oil based stains. TarGo Dry delivers faster, more complete stain removal, on a broader range of oily type stains, with greater safety for colors and fabrics.

Since it contains chlorinated solvents, we only recommend TarGo Dry for use in coordination with drycleaning in Perc. Do not flush to sewer or contaminate ground water.

For laundry or wetcleaning, use Laundry TarGo<sup>®</sup> to remove oily stains. When drycleaning with alternative solvents, use TarGo<sup>®</sup> EF.

### DIRECTIONS

Before starting, read and understand the TarGo Dry Material Safety Data Sheet.

#### How to use TarGo Dry:

➤ **On the Spotting Board.**

Apply TarGo Dry. Work in thoroughly until stain loosens. Several applications may be needed. Flush with wet steam or solvent then feather out with air. Reclean if necessary.

➤ **For Ink or Lipstick Loads in a Perc Machine.**

Load stained clothes into wheel and add Perc to low solvent level. Turn off circulating pump. Add 1 quart of TarGo Dry for every 20 gallons of Perc in wheel. Run for 30 minutes. Pump Perc from wheel to still, then run on filter for 10 minutes.

➤ **How to use TarGo Dry in Rug Cleaning.**

Apply TarGo Dry. Work in thoroughly with brush or spatula until stain loosens. Several applications may be needed. Shampoo.

- Faster, more complete stain removal.
- On a broader range of oily type stains and inks.
- With greater safety for colors and fabrics.
